PROFESSIONAL SUMMARY

Carnegie Mellon University graduate student with 7 years of game development experience. Experienced in diverse projects across multiple roles—including programmer, designer, and producer—demonstrating the ability to contribute effectively both as a collaborative team member and as an independent developer.

Education

Carnegie Mellon University	Pittsburgh, PA
Master of Entertainment Technology	Aug 2025 - May 2027
National Tsing Hua University	Hsinchu, TW
Bachelor Science of Computer Science	Sep 2020 - Jun 2024

Experience

CreSpirit	Hsinchu, TW
Game Programmer and Designer Intern	Feb 2024 – Jun 2024

- Executed an ongoing project's mini-game with iterative development.
- Constructed Model-view-controller pattern to adjust rapidly based on feedback in the development cycle.
- Supported design tasks including storyline and resource management.

Skills

C# | Unity | Python | C | C++ | Game Design | Game Mechanics | Project Management | Playtest | UX/UI Design

Projects

CreSpiritTalker - An Unity editor plugin designed to help users create visual novel scenes	
Solo Developer	Nov 2024 - Jun 2025

- Created a highly customizable Unity plugin featuring its own editor window.
- Designed for visual novel-style games and general in-game dialogue interfaces.
- Developed a system for embedding text commands with support for developer-defined custom commands

Project Fusion - An auto battler game featuring a unique fusing artifact mechanic	
Leader, Programmer, Designer	Apr 2023 - May 2024

- Administered entire project with unique mechanics and program structure.
- Recreated Gameplay Ability System in Unity and added a passive abilities policy system.
- Implemented Model-view-controller pattern for the UI system for lower coupling codes.

You Ken-Do It - A VR kendo game focused on Block & Counter mechanic	
Leader, Programmer, Designer	Mar 2023 - Jun 2023

- Chaired a VR game that could also serve training purposes via different difficult level design in Unity.
- Amplified users' experience in VR by designed most of the mechanics.
- Enhanced UI/UX through iterative element adjustments based on playtesting, creating a more immersive experience..

Survivor For the Feast - A survivor-like feature hunting, collecting, and cooking	
Leader, Programmer, Designer, Art	Sep 2022 - Jan 2023

- Headed the development with agile methodology, prioritized different tasks to assign them dynamically.
- Managed a team of 5 and coordinated tasks to achieve milestones and project completion within 4 months
- Established core gameplay and formulated most of the mechanics to enrich the game.
- Won Best Game Design in Student Innovation Game Design Competition among 26 games.
